

Enhancing health care to impact generations...

## Lloydminster Region Health Foundation

### **Current Priority Project:**

### Caring for our Precious Little Ones *Maternal & Child Care*

Did you know that in the past seven years alone, nearly 6,000 babies were born in Lloydminster Hospital? As our population continues to thrive, the needs in our Maternity Department continue to grow.

Brand new, high-tech equipment for this area will allow our caregivers to efficiently treat new mothers and babies, saving time and costs associated with travel to larger centers.

In addition to new equipment, comfort for new mothers and babies is of the utmost importance. Part of patient comfort upgrades will include the renovation and renewal of the Maternity Department Lounge/Outdoor Courtyard. This lounge is used as a sleeping area for parents and birth coaches, a waiting room for expectant families, and an educational space- used to teach new mothers about breastfeeding, infant care, and other pertinent topics.

These improvements will make an immediate impact on the mothers, babies, and families using the Maternity Department.

### **Your donation will help:**

- Purchase brand new, high-tech equipment for the Maternity Department
- Provide patient comfort upgrades, including the renovation and rejuvenation of the Maternity Lounge & Outdoor Courtyard. This area is heavily used by families and new mothers. Maternity staff also use this area as an educational space to teach new mothers.
- Ensure that the best care is available for mothers and babies, right here in our community

**Total Project Goal: \$600,000**

*With your help, amazing things can happen.*
