DEVON CANADA SUPPORTS 'HEALTH FIRST...IT'S EVERYTHING'

Lloydminster, AB/SK – The Lloydminster Region Health Foundation (LRHF) is proud to announce Devon Canada Corporation as a "Partner in Caring" of the Lloydminster Region Health Foundation.

Devon is pleased to donate \$100,000 to the Foundation and will be naming a new ambulance bay at the Lloydminster Hospital in support of the Health Foundation's Health First campaign.

Because of support from companies like Devon, health care in Lloydminster can go above and beyond to provide a much greater level of care and service.

Devon is committed to being a good neighbour in communities where its employees live and work, such as Lloydminster. It is important to the company to partner with local organizations and invest in community initiatives that focus on the betterment of these communities.

"Contributing to projects that build or improve local healthcare programs is a primary objective of Devon's Community Investment Program," said Doug Moore, Devon's Lloydminster District Superintendent. "The Lloydminster Hospital ambulance bay provides us with a great opportunity to leave long-lasting benefits in the community."

Dale Beaudry, LRHF Board Chair added, "We are so pleased to be partnering with Devon in the Health First campaign. Their community support ensures that the Health Foundation can provide tools that move our healthcare above and beyond the basics, towards excellence."

Investments in this campaign have provided new monitoring equipment and chairs to the Renal Dialysis department, allowed staff to receive specialized training, purchased new surgical equipment, and provided access to a greater number of surgeries and procedures.

The Lloydminster Region Health Foundation is in its 25th year of providing essential funding to enhance healthcare in our community. Since inception, over \$7 million dollars, (over \$4 million in the last 5 years alone) has been invested into the community by the Foundation.

Devon Canada Corporation is the Canadian operating division of Oklahoma-based Devon Energy Corporation. The company's portfolio of oil and gas properties provides stable, environmentally responsible production and a strong platform for future growth. The company produces approximately 190,000 barrels of oil per day equivalent (boed) before royalties and represents one quarter of Devon Energy's production. Devon Canada employs approximately 1,500 people in Calgary and in its Yukon, Northwest Territories, British Columbia, Alberta and Saskatchewan field operations. The company has approximately 5,000 employees worldwide.
