

For Immediate Release

July 9, 2008

“Lloydminster Meridian Printing and Lloydminster Meridian Booster partner with the Lloydminster Region Health Foundation”

The Lloydminster Region Health Foundation is proud to announce the gift of \$100,000 to support the fundraising activities in support of local healthcare.

The Lloydminster Meridian Printing & Meridian Booster has a long history in Lloydminster. The two sides of the business ensure printing needs and news needs for nearly 40,000 readers in the Lloydminster area. This expertise in providing news, print and advertising translates well into supporting a community initiative to enhance healthcare needs in the region.

Not only does the Meridian Booster and Printing excel at business and the news world, they are also a strong community supporter. “Lloydminster Meridian Printing & Lloydminster Meridian Booster has been a strong Lloydminster business for a long time. They have a solid history of supporting this community in a number of ways,” said Georgina Altman, Executive Director of the Lloydminster Region Health Foundation.

“The Lloydminster Region Health Foundation is doing some excellent work in support of local healthcare so it was easy for us to make the decision to help the Foundation with their current fund raising priorities, says Shaun Jessome, Publisher. “The hospital serves a large geographic area and offers a number of services that a lot of people don’t really know about. The current focus to enhance the surgery programs and to add mammography services to our community were both easy for us to support. The need for community support of healthcare will not diminish in the future, so we knew that it was time to get involved in a meaningful way.”

“Support for the Health Foundation fits so well with Sun Media’s (Meridian Booster / Printing’s parent company) mission statement of “Helping to Connect and Build Better Communities.”

The Lloydminster Region Health Foundation is in its 25th year of providing essential funding to enhance healthcare in our community. Since inception, over \$7 million dollars (over \$4 million in the last 5 years alone) has been invested into the community by the Health Foundation.
